Randi Johl
City Clerk

CITY OF LODI COUNCIL COMMUNICATION

AGENDA TITLE: Presentation of City of Lodi's Sewer System Management Plan (SSMP)

MEETING DATE: September 1, 2009 (Shirtsleeve Session)

PREPARED BY: Public Works Director

RECOMMENDED ACTION: Receive presentation of the City of Lodi's Sewer System Management Plan (SSMP).

BACKGROUND INFORMATION: The State Water Resources Control Board adopted on May 2, 2006, the Statewide General Waste Discharge Requirements (GWDR) as required by Order No. 2006-0003 that requires that all public collection systems composed of more than one mile of pipeline be regulated. The Order requires that each operator of a publicly-owned collection system develop and implement a system-specific Sewer System Management Plan (SSMP). The SSMP contains 11 different elements. The presentation will describe each element and compliance requirements of each.

FISCAL IMPACT: The SSMP, as implemented over time, will continually identify operational and capital needs to minimize sanitary sewer overflows.

FUNDING AVAILABLE: Added costs for compliance will be incorporated via mid-year budget adjustments and future budgets, as appropriate.

F. Wally Sandelin
Public Works Director
